SKILLS & EXPERTISE

- Back-end: PHP, Python (beginner)
- Back-end frameworks: (Symfony, Yii2)
- Front-end stack: (JavaScript, HTML, CSS)
- Front-end frameworks: (Vue3)
- Databases: (MySQL, PostgreSQL, MS SQL)
- Testing: TDD, BDD (PHPUnit, Codeception, Behat)
- Other stack: Redis, RabbitMQ, Elasticsearch (beginner)
- Log & Analysis: Sentry, Blackfire, Grafana, Graylog
- Others: Docker, Linux, Git, SOLID

WORK EXPERIENCE

PHP Backend developer

EVISA EXPRESS (2024.09 - NOW)

- Created the concept and design of the entire REST API for a new mobile application, including defining resource structure, endpoints, and integration strategy.
- Co-developed the API implementation together with a teammate, ensuring clean architecture and maintainable code including tests (BDD).
- Integrated external services such as Stripe (payments), SMSApi (SMS notifications), and Firebase (push notifications).
- Built an automation system to process support inbox emails, leveraging the OpenAI API to detect inquiries (e.g., visa status requests) and respond automatically.
- Developed a configurable email automation module that filtered messages based on defined rules, sent pre-filled responses to clients, and posted notifications to Slack.
- Provided ongoing technical support, including monitoring and resolving system errors to ensure production stability.

PHP Backend developer

E Net Production (2022.12 - 2024.08)

- Developed new features for the e-commerce platform, with a strong focus on improving user experience (UX).
- Implemented and maintained integrations with external APIs (Allegro) to enhance platform capabilities.
- Refactored legacy code to improve system performance and maintainability.
- Designed and developed efficient API endpoints for the frontend service, following REST best practices validated through Blackfire profiling.
- Built features tailored to internal operators' workflows based on real-world usage and requirements.
- Provided ongoing technical support, including diagnosing and resolving production-level issues.

ABOUT ME

Passionate and committed full stack developer with strong problem-solving skills and great attention to detail.

I'm a reliable and independent professional who consistently delivers high-quality results and actively contributes to team success.

My colleagues can always count on me — I enjoy sharing knowledge, supporting others, and helping solve complex challenges. I have experience in leading team efforts, planning tasks, and coordinating deployments.

I focus on finding the most optimal and scalable solutions based on given requirements, ensuring both code quality and performance of the final product.

Wyrażam zgodę na przetwarzanie moich danych osobowych dla potrzeb niezbędnych do realizacji procesu rekrutacji (zgodnie z ustawą z dnia 10 maja 2018 roku o ochronie danych osobowych (Dz. Ustaw z 2018, poz. 1000) oraz zgodnie z Rozporządzeniem Parlamentu Europejskiego i Rady (UE) 2016/679 z dnia 27 kwietnia 2016 r. w sprawie ochrony osób fizycznych w związku z przetwarzaniem danych osobowych i w sprawie swobodnego przepływu takich danych oraz uchylenia dyrektywy 95/46/WE (RODO).
